
SimWorks Anti-Virus UIQ selected as Application of the Month by SonyEricsson subsidiary UIQ Technology AB

Auckland, New Zealand / Ronneby, Sweden - 15 November 2007 – SimWorks announced today that it's popular mobile phone anti-virus solution, SimWorks Anti-Virus UIQ3 has been selected as Application of the Month November 2007 by UIQ Technology AB.

Each month UIQ Technology showcases a leading UIQ application in the My UIQ section of it's UIQ.com website. Other recent selectees include the well known dictionary application SlovoEd and travel application WorldMate. As with other selected Applications of the Month, SimWorks Anti-Virus will be published on the UIQ Technology website, providing information on the application features.

Aaron Davidson, SimWorks CEO said "We are extremely proud that SimWorks Anti-Virus UIQ3 has been selected as Application of the Month. There are a great many excellent applications available for UIQ and our selection is a reflection of our continuing dedication to providing industry leading mobile security solutions".

The SimWorks UIQ Application of the Month feature can be found at the UIQ site at the following link - http://www.uiq.com/application_of_the_month.html.

Notes to Editors

About SimWorks Anti-Virus UIQ3

SimWorks Anti-Virus is one of the best recognised anti-virus applications for Symbian UIQ and Series 60 based mobile phones. Available since July 2004, SimWorks was the first vendor to release an anti-virus solution for UIQ phones, the second vendor to release an anti-virus solution for Series 60 phones and remains one of the few vendors to support both the UIQ and Series 60 platforms.

SimWorks Anti-Virus is commercially available through numerous third party application portals and is presently available in English, German, Portuguese, Spanish and Arabic variants.
